

PRODUCT INFORMATION SHEET

Flat Mop Cover 2 Irradiated

The Knitted Flat Mop Cover is composed of a knitted polyester outer cover with an absorbent rayon inner layer. It is designed for the capture and removal of contaminants during the cleaning process on uneven as well as smooth surfaces. It has excellent absorbency and low fibre shedding. Each cover is individually wrapped to preserve cleanliness and labelled for identification.

COMPOSITION AND ATTRIBUTES

- ISO Class 5 / Class 100 and higher
- 100% knitted polyester outer cover
- 100% rayon Nonwoven inner layer
- High absorbency capacity
- High tear strength
- Certificate of irradiation with each case

APPLICATIONS

- ISO Class 5 / Class 100 and higher
- Cleaning of floors, walls and ceilings in controlled environments
- Autoclavable folding flat mop and telescopic handle also available
