PREMIUM MICROFIBER MOP - EFFECTIVE EVEN ON NON-SLIP FLOORING

Safety first, hygiene second... That's the implicit choice you made when choosing your non-slip floor, which is a daily cleaning headache. You're not alone! It's reassuring but that's not enough, which is why DECITEX is offering you the solution you've been waiting so long for. And that's not all!

As the name suggests, *ULTIMATE Duo - white* uses the patented *ULTIMATE* technology. Thanks to its rigid filaments that work against the pile, the front of *ULTIMATE Duo - white* (everted side edge) lifts dirt and holds it within its microfiber system, never to let it go. This front side eases the glide on non-slip floors. The softer rear, made of 100 % microfiber, finishes the job perfectly.

He who can do more...

ULTIMATE Duo - white is the most versatile mop in the range and its everted rim will even pick up dirt from along plinths. It also comes in grey (*ULTIMATE Duo - grey*) for electrostatic dry mopping, the white one is more dedicated to the wet mop stage but that's up to you!

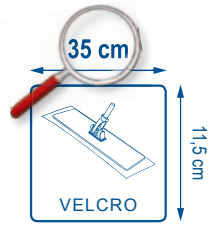

ULTIMATE Duo - white is very dense (950 g / m²) so it can cover surfaces from 50 to more than 100 m² depending on the level of dirt. It's built to last more than 500 washes and thanks to its range of four colours, it can be allocated by work area or facilitate logistical redistribution within your department.

TECHNICAL SPECIFICATIONS

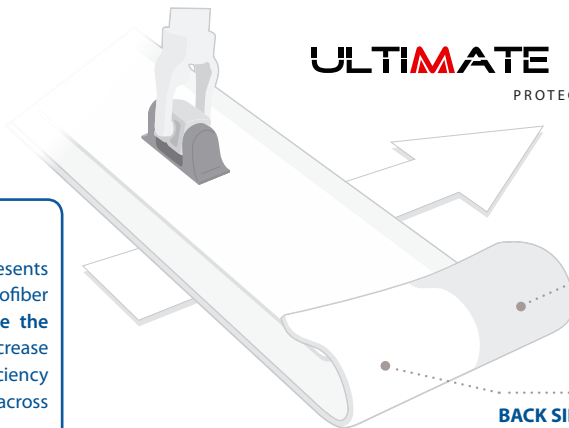

80 % microfiber
(100 % polyester)
20 % polyester

Description:	Premium microfiber mop - effective even on non-slip flooring
Packaging:	Box of 10 bags of 10 Ultimate Duo - white
Construction:	V.M.P. Technology (Velvet Microfiber Polyester)
Weight per m²:	950 g
Dry weight:	57,5 g
Weight when wrung:	140 g
Absorption rate (water):	3 Ultimate Duo - white for 1/2 L of solution
Finish:	Technical sewing
Yarn size:	0,56 dTex

PATENTED TECHNOLOGY

The **ULTIMATE** technology represents technical advancement in microfiber engineering to simultaneously **increase the proportion of pure microfiber** to increase absorption capacity and cleaning efficiency while **optimizing the ergonomic glide** across the floor surface.

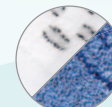

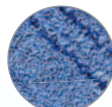

ULTIMATE TECHNOLOGY

PROTECTED BY PATENT

FRONT SIDE - INCREASED MECHANICAL ACTION AND GLIDE
Alternating weave of microfibers and scrubbing fibers

BACK SIDE - OPTIMIZED ADSORPTION AND SOIL REMOVAL
100% microfiber
