NEW GENERATION UNIVERSAL MICROFIBER MOP

Cheese or dessert? Sometimes the choice isn't easy! With *ULTIMATE* technology, there's no need to choose between performance and ergonomics. The *ULTIMATE* technology boosts efficiency (higher proportion of microfiber) and makes it glide easily over the floor. The front of the mop, with alternating design, removes dirt while the 100 % microfiber rear holds it in and absorbs grease, for a perfect finish in a single wipe.

Give up chocolate or ice-cream? Another example of a choice nobody wants to make. *ULTIMATE Dx1* solves the dilemma between European manufacturing and competitive price. The baby of the *Dx1* family was created in Europe in response to the tendering market. However, no concession has been made on the DECITEX fundamentals: the *Polyester Microfiber Velour* technology makes *ULTIMATE Dx1* a featherweight with a cleaning capacity of more than 30 m², significant resistance to chemical and temperature damage and lower laundry costs.

And its cost-effectiveness doesn't stop with the buyer, as *ULTIMATE Dx1* is designed to optimise costs at all stages. In particular, its light weight makes a difference when it comes to laundry, reducing the associated costs. The colour code facilitates logistical redistribution within the departments and, in certain countries, prevents cross-contaminations.

ULTIMATE Dx1 is designed to adapt to all floor types and can also be used to wash walls or ceilings. Its white colour allows you to see the dirt after use and the result of your work. The scrapers enhance the mechanical effect for easy removal of dirt.

It's a general-purpose bestseller.

TECHNICAL SPECIFICATIONS

95 % microfiber
(100 % polyester)
5 % polypropylène

Description:	New generation universal microfiber mop
Packaging:	Box of 10 bags of 10 Ultimate Dx1
Construction:	V.M.P. Technology (Velvet Microfiber Polyester)
Weight per m²:	650 g
Dry weight:	48 g
Weight when wrung:	123 g
Absorption rate (water):	4 Ultimate Dx1 for 1/2 L of solution
Finish:	Technical sewing
Yarn size:	0,78 dTex

PATENTED TECHNOLOGY

The **ULTIMATE** technology represents technical advancement in microfiber engineering to simultaneously **increase the proportion of pure microfiber** to increase absorption capacity and cleaning efficiency while **optimizing the ergonomic glide** across the floor surface.

ULTIMATE TECHNOLOGY

PROTECTED BY PATENT

FRONT SIDE - INCREASED MECHANICAL ACTION AND GLIDE
Alternating weave of microfibers and scrubbing fibers

BACK SIDE - OPTIMIZED ADSORPTION AND SOIL REMOVAL
100% microfiber
