## MINI MICROFIBER CLOTH FOR SMOOTH SURFACES (STAINLESS STEEL, WINDOWS, MIRRORS...)

They say size doesn't matter! And *Mini 260* proves it with its ideal 23 x 35 cm size. No need to fold in four or use in a ball, it folds naturally in two and offers real protection for your hand for use flat on the surface.

Small and effective, it's all about the finish. If the wicked queen had used it to clean her mirror, she'd have been able to see straight away that she wasn't the fairest of them all!

*Mini 260* brings the shine back to all smooth surfaces, such as windows, mirrors and stainless steel.

It's *Mini* and looks so good! Its grey colour shows the dirt less and remains stable for 300 washes. The colour of the overcast stitching (around the edge) is indestructible, making it possible to allocate it by work area (blue for furniture, red for bathrooms, etc.).

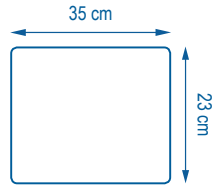

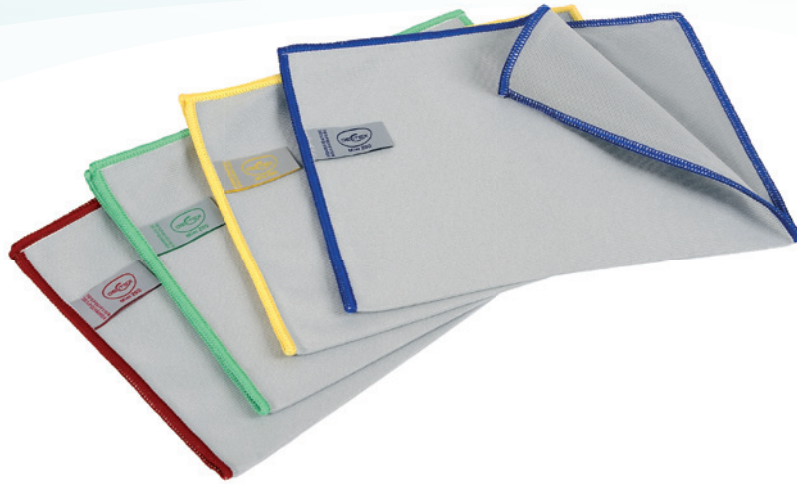

Together with *Mini 320*, you have two *Mini Chic* products, 100 % microfibre (70 % polyester / 30 % polyamide) for both an impeccable finish and top quality general cleaning.
