## MICROFIBER MOP FOR DRY DUSTING

*ULTIMATE Duo - grey* has all the qualities of *ULTIMATE Duo - white* but we have dedicated it to electrostatic dry mopping. It is used dry and picks up hair, fur and other larger bits of dirt at the front, while the back deals with smaller particles.

As the name suggests, *ULTIMATE Duo - grey* uses the patented *ULTIMATE* technology. Thanks to its rigid filaments that work against the pile, the front of *ULTIMATE Duo - grey* (everted side edge) lifts dirt and holds it within its microfiber system, never to let it go. The softer rear, made of 100 % microfiber, finishes the job perfectly.

Its grey colour was sensibly chosen to look good at all times. It's ideal for dry mopping floors of all sizes as it has many brothers and sisters. The baby of the family is 50 cm and the biggest 1.20 m. This can be used to easily dry mop hotel lobbies, gyms, even airport lounges, etc.

On the most dirty surfaces, before washing the mop (500-wash life!), it's advisable to vacuum it to remove the larger bits of dirt held within its strands. This prevents the washing machine getting dirty!

Scissor mops pale into insignificance with the arrival of the new generation!

## TECHNICAL SPECIFICATIONS

100 617

80 % microfiber  
(100 % polyester)  
20 % polyester

60°C  
MAX. 95°C

NO  
SOFTENER

**Description:** Microfiber mop for dry dusting

**Packaging:** Box of 10 bags of 10 Ultimate Duo - grey

**Construction:** V.M.P. Technology (Velvet Microfiber Polyester)

**Weight per m<sup>2</sup>:** 950 g

**Dry weight:** 82 g

**Weight when wrung:** /

**Absorption rate (water):** /

**Finish:** Technical sewing

**Yarn size:** 0,56 dTex

### PATENTED TECHNOLOGY

The **ULTIMATE** technology represents technical advancement in microfiber engineering to simultaneously **increase the proportion of pure microfiber** to increase absorption capacity and cleaning efficiency while **optimizing the ergonomic glide** across the floor surface.

## ULTIMATE TECHNOLOGY

PROTECTED BY PATENT

**FRONT SIDE - INCREASED MECHANICAL ACTION AND GLIDE**  
Alternating weave of microfibers and scrubbing fibers

**BACK SIDE - OPTIMIZED ADSORPTION AND SOIL REMOVAL**  
100% microfiber
