## Mini 200

### VALUE MINI MICROFIBER CLOTH FOR ANY TYPE OF SURFACE

Like the other products in the Mini range, *Mini 200* measures 23 x 35 cm, is used flat on the surface, naturally folds in two and offers perfect protection for your hand.

This value microfiber cloth can be washed 200 times, enabling you to clean any type of surface at minimal cost. *Mini 200* is 100 % microfiber (70 % polyester / 30 % polyamide) and available only in grey.

The overcast stitching (around the edge) and label are indestructible and add a touch of colour with the choice of blue, yellow, green and red.

Why only grey? Because it's trendy and looks good of course! No, mainly because it shows the dirt less and is more wash-resistant.

It's nice when our products are sexy but first and foremost they have to be practical.

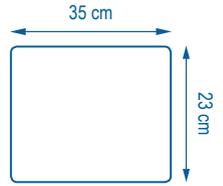

Together with *Mini 350*, you have two *Mini Basic* products for both cleaning and absorption, polishing and drying.
