

Klercide-125®

Filtered Alcohol with 0.125% H₂O₂

Cleanroom filtered 70/30 v/v denatured ethanol and hydrogen peroxide blended with deionised water.

Advantages

■ Easy to use

The fully adjustable trigger spray allows liquid to be dispensed as either a jet or a spray. The large droplet size reduces the risk of inhalation.

■ Cost effective

All the alcohol can be dispensed from the bottle so there is no wastage. The SteriShield Delivery System has been validated to give an in-use shelf life of three months, so there is no need to discard unused product.

■ Optimum surface coverage

The large droplet size leads to thorough wetting of the surface to ensure disinfection procedures are effective.

Description

Klercide-125 is a 70% v/v blend of denatured ethanol with deionised water containing 0.125% hydrogen peroxide. The small amount of hydrogen peroxide ensures there are no spores in the liquid, bottle or SteriShield Delivery System components for 50 hours after filling.

The alcohol blend is 0.2 micron filtered, filled and double bagged in a Grade C (ISO Class 7) cleanroom. The bottles incorporate the patented SteriShield Delivery System and an adjustable trigger spray. The unique way in which the SteriShield Delivery System works, as a closed system, ensures that the integrity of the contents is preserved throughout use.

Available as a 1 litre trigger spray.

Protocol

Ready to use, so can be sprayed directly onto the surface to be sanitised. Always ensure the whole surface is in contact with the liquid. For optimum results wipe the surface to physically remove any contaminants.

Use biocides safely. Always read the label and product information before use.

Validation

Manufactured by a ISO 9001:2008, ISO 13485:2003 and European Medical Device Directive 93/42/EEC accredited company.

CEN test data available.

Certificates of analysis with every batch.

2 year shelf life.

Quality of contents guaranteed by the SteriShield Delivery System, validated for three months.
