

Technical Data Sheet

ISO AIR FACE MASK

SPECIAL CLEAN ROOM & CONTROLLED ENVIRONMENTS

Item code: 60.701

FEATURES & BENEFITS

- Very low particles linting: Helmke drum tested.
- Suitable for use in ISO 3 or higher clean room environment.
- Excellent bacterial and particulate filtration efficiency.
- Superior comfort thanks to its headloops and its perfectly adjustable nose clip.
- Thanks to its width of 230 mm, it is perfectly adapted to clean room protocols.
- Available in double bag.
- Manufactured in ISO 8 cleanroom (particulate & microbiological control)

PRODUCT DETAILS

Product name:	Iso Air face mask
Product type:	Single use, non sterile
Inner layer:	Thermobonded polypropylene
Filter:	Meltblown polypropylene
Outer layer:	Thermobonded polypropylene
Straps:	Headloops
Dimensions:	230 x 95 mm (± 5 mm)
Nose clip:	Polypropylene & metal
Color:	White
Manufacturing country:	FRANCE

FILTRATION AND COMFORT DATA

TEST	LABORATORY	AVERAGE RESULTS
Bacterial Filtration Efficiency BFE 3 µm	NESLON	98,8 %
Breathability: DELTA P		26,8 Pa/cm ²
Particle Filtration Efficiency PFE 0.1 µm		> 99 %

CONSERVATION AND STORAGE CONDITIONS

Normal storage conditions: should not be exposed to moisture and sunlight, should be stored at a temperature between 5°C and 40°C.
Shelf life of the product: 5 years
