## Texwipe Introduces Sterile TechniCloth® STX®4351

**Effective Date:** Starting August 2022

**Update:** Texwipe introduces Sterile TechniCloth® STX4351, a 9" x 11" sterile wiper. TechniCloth® is made from 45% polyester / 55% cellulose nonwoven material with a cut edge and is cleanroom manufactured. The STX4351 is available in a peel-and-reseal bag which can easily be opened and resealed after usage.

### Features:

- Constructed from 45% polyester / 55% cellulose nonwoven fabric, creating a durable, high absorbency wiper ideal for spill control, cleaning, and solution application.
- Irradiated to a Sterility Assurance Level of  $10^{-6}$  in accordance with ISO 11137-2.
- Manufactured to provide low levels of particles and extractables, creating a wiper suitable for general cleaning and wiping.
- Excellent chemical resistance for compatibility with a variety of solutions.

### Cleanroom Environment:

- ISO Class 5-8
- Class 100 - 100,000
- EU Grade B - D

### Product Packaging:

- 20 wipers per flexpack
- 4 flexpacks per outerbag
- 6 outerbags per case liner
- Total: 480 wipers/case
