

Product Change Notice

Starting in July 2016, Texwipe will replace its current product, TX3211 SterileWipe™ LP Made in USA, with TX3211 SterileWipe™ LP Made in China.

The manufacturing location will change to Texwipe China, ISO 9001 certified. Consequently this leads to the following changes:

- The sterile bag and the case label will change to “Made in China”.
- There will be a change in address on the product certificates.
- The wipers will be supplied by our factory in China.
- The sterilization site will change to Synergy Health in the Netherlands.

TX3211 made in China is a sterilized, validated and documented product.

There are no changes to the product or packaging specifications.
