

"RUBYSTICK"

Description of item

RUBYSTICK does not damage objects due to the function of ultrafine continuous pores.

Suitable for cleaning small parts that are hard to reach.

Invisible dust can be removed.

(Features)

- Ultra-fine continuous pores
- No self-dusting
- Excellent liquid absorption
- Excellent water retention

RUBYSTICK should be used dry or wet with pure water or solvent (absorbed from the wiped surface).

*** When using a solvent, check the operating conditions beforehand as it depends on the operating conditions

such as temperature and time, and the required level ***
