

Basic Info

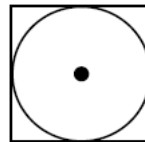

Characteristics

- Through the dual-action function the harder scrub stripes remove even tough residues from surfaces, while the fine microfibers trap and remove contamination
- Insert for high fluid absorption and surface capacity
- Excellent cleaning ability, great pick-up of all kinds of particles
- For single use, not autoclave
- Disposable mop or several times reusable
- Washable

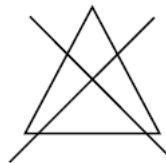

Applications

- Semiconductor, display (TFT LCD, PDP, OLED) manufacturing line
- Pharmaceutical or biotechnology manufacturing line
- Hospital, electronic components assemble line

Washing

- Drying at lower temperature.
- Remove article (product) from machine as soon as it is dried.
- Avoid over-drying

- Do not use chlorine bleach!
- Bleach will shorten the life of product.

Product Information

Dimension	12cm × 40cm ± 1cm
Weight	59g/pc ± 5%
Color	Blue / White
Material	Polyester / Polyamide (Backing : Polyester)
Absorbency	394ml/pc (typical value)
Cleaning area per wring	25 m2

* Mop Sterilized : Available Gamma ray
