Windows

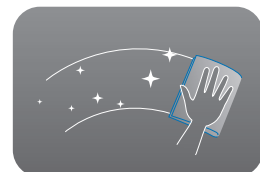

One size

- Very competitive price
- One size fits all hands
- Eco-friendly format

Ideal colour

- Elegant silver grey colour that stands out
- Shows less dirt and resists repeated washes
- Permanent colour coding on seam and tag

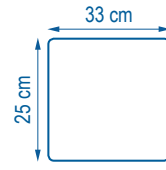

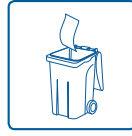

Natural folding in 2

- Better results than standard cloths used in a ball
- Time saving compared to cloths folded in 4
- Full protection of the hand

SMART TEXTILES

FLOOR CLEANING TECHNOLOGIES

ULTIMATE TECHNOLOGY

PROTECTED BY PATENT

FRONT SIDE - INCREASED MECHANICAL ACTION AND GLIDE
Alternating weave of microfibers and scrubbing fibers

BACK SIDE - OPTIMIZED ADSORPTION AND SOIL REMOVAL
100% microfiber

PATENTED TECHNOLOGY

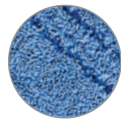

The **ULTIMATE** technology represents technical advancement in microfiber engineering to simultaneously increase the **proportion of pure microfiber** to increase absorption capacity and cleaning efficiency while **optimizing the ergonomic glide** across the floor surface.

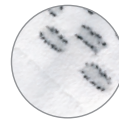

ULTIMATE Dispomop®

ULTIMATE 3D

ULTIMATE M600

ULTIMATE Dx1

ULTIMATE Duo - grey

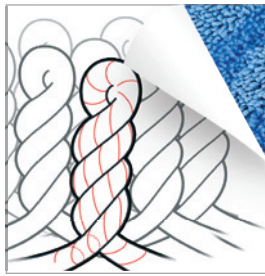

ULTIMATE Duo - white

VMP TECHNOLOGY

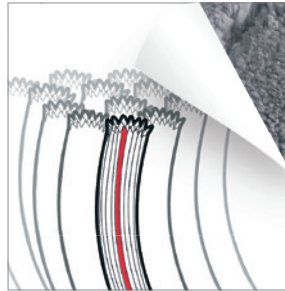

LIGHTER AND MORE DURABLE MOPS

V - VELVET

- free untwisted yarn to optimize the microfiber capillary web (*absorption*)
- numerous launderings will not damage the structure or efficiency of the fibers
- no need for an intermediate textile layer (*foam, microfiber liner...*)

microfiber 80/20 in a knitted fabric

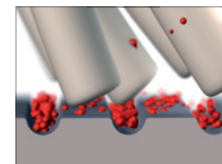

polyester microfiber in a **VMP** velvet fabric

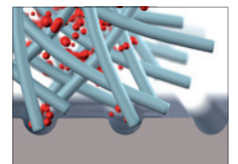

velvet: 3-dimension structure

M - MICROFIBER

- yarn with a size under 1 decitex (*1g / 10km*)
- easily removes residual soil by friction (*mechanical strength*)
- absorbs in depth within the spaces created between the fibers (*capillary strength*)

cotton fibers

microfibers

P - POLYESTER

- better resistance to chemicals and temperature
- greater capacity to release cleaning fluid (*hydrophobic*)
- absorption and retention of oil based soil within the yarn (*lipophilic*)

EXTRA

POLYESTER MICROFIBER

- clean production process (*no caustic soda treatment*)
- best compromise removing | absorption | glidability
- + 60% microfiber compared to the 80/20 microfiber mops
