

ESD Castor (C-ESD)

Castors: ESD soft tyre
Brake unloaded

Conductivity: $R = 10^4 \text{ Ohm}$

Standards: EN 12527, EN 12528, EN 12529
DIN EN ISO 14001 : 2005

Load capacity: 50 kgs

Construction:

Soft wheels have a contact surface of non-smearing, abrasion-resistant polyurethane.

Standard castors = brake unloaded:

The brake is only applied to the castor when not under load. That means it will not shift when you stand up.

Option: Brake loaded (locking)

The castor brakes the chair or furniture only when under load. That means it will not roll while sitting down.
